

# CONTRACTOR SELECTION METHODS

## Competitive bidding

- There is no limit on the number of bidders
- The competitive bidding method may apply to all packages, except in cases where other methods are applied.

## Limited bidding

- Applicable when only some bidders meet due to high technical factors or donor requirements

## Direct contracting

- The form of selection by which the bidder appoints a specific contractor to execute the bidding package

## Shopping method

- Applies to the following packages whose price does not exceed VND 05 billion

## Direct

- Applies to packages for purchase of similar goods of projects or procurement cost estimates of the same employer or another employer

## Self-execution

- The employer may themselves execute that package if it meets all of the requirements of this method

## Community engagement

- Residential communities, teams or groups in the local area where a package is executed shall be assigned to take charge of the entire or part of that package

## Price negotiation

- Apply to specific medical devices that can only be manufactured by one or two manufacturers.

## Contractor selection in special circumstances

- Apply to packages with the specifics of process, procedure, selection criteria, conditions of signing, and implementation cannot apply to the above forms

## Other contractor selection methods
